CHRISTIAN**SOLER**

FULL STACK WEB DEVELOPER

chr.solr@gmail.com • github.com/chrsolr • chrsolr.me • 401-559-4143

Profile

I am a dedicated Full Stack Developer with over seven years of extensive experience in conceiving, designing, and executing applications and solutions using various programming languages and technologies. I take great pride in my work. I am known for my unwavering self-motivation, adept problem-solving abilities, and a strong inclination toward thriving in collaborative, high-pressure project environments.

I am actively seeking an opportunity with a forward-thinking company that fosters a dynamic work environment. I aim to leverage my depth of knowledge and hands-on experience while becoming an integral part of a team that shares my profound passion for programming. Your consideration of my qualifications is greatly appreciated.

Technical Proficiencies

ReactJS, TypeScript, NodeJS, ExpressJS, JavaScript, AngularJS, MeteorJS, C#, MongoDB, Docker, Kubernetes, ExpressJS, ASP.NET, JSON, HTTP, Bootstrap, Tailwind, LINQ, Git, Bitbucket.

Experience

Full Stack Developer - Innowatts Inc. (February 2018-Present)
Technologies: AngularJs, ReactJs, style-components, JavaScripts, Typescript, NodeJs, MeteorJs, MongoDB, Docker, Kubernetes
Responsibilities
- Created Web APIs using NodeJS, ExpressJS, Postgres, and MongoDB.
- Organized dependencies into modular components for the creation of reusable microservices.
- Engineered components for smooth integration into various projects.
- Devised RESTful APIs to facilitate communication with external RESTful and SOAP APIs.
- Utilized a range of technologies, including AngularJS, ReactJS, styled components, and more.

Jr. Software Engineer - Preventice Solutions (August 2015-June 2017)
Technologies: C#, ASP.NET MVC, JavaScript (ES5+), KnockoutJs, RequireJs, Entity Framework, MS SQL, AJAX.
Responsibilities
- Restructured preexisting code by converting it into JavaScript Modules through the use of KnockoutJs and RequireJs.
- Conducted research, and applied design patterns such as Dependency Injection and Repository Patterns.
- Transferred legacy code into an ASP.NET MVC application.
- Modularized and improved a customizable User Interface.
- Proficient in C#, ASP.NET MVC, JavaScript (ES5+), Entity Framework, MS SQL, and AJAX.

Jr. Web Developer/Teacher Assistant - Coder Camps (September 2014-March 2015)
Technologies: C#, ASP.NET MVC, AngularJs, MS SQL, AJAX, LINQ.
Responsibilities
- Revamped the corporate website and page layouts, employing the Razor Engine, Bootstrap, LESS CSS, JQuery, and HTML.
- Created the "Company's Partner" segment using C#, ASP.NET, MVC, Entity Framework, LINQ, and AngularJS.
- Introduced functionality enabling students to submit job applications via the company's website.
- Supervised and guided a team of 5-7 interns in their daily tasks.
- Proficient in C#, ASP.NET MVC, AngularJS, MS SQL, AJAX, and LINQ

Education

- 9 Week .NET Full Stack Program, Coder Camps, Pearland, TX, 8/2014
- Bachelor's Degree in Computer Science, Rhode Island College, Providence, RI (78 Credits)
- Associate Degree in Applied Science in Information Technology, Monroe College, Bronx, NY, 08/2011
